

1st BASE - Your Research, Our Business

For more information, visit www.base-asia.com

Hop into the Year of the Rabbit

with Fantastic Gifts from 1st BASE

Order any **20 DNA Sequencing Reactions** or **11 DNA Oligos** before 31 March 2011 to receive your **choice of Gift**

Taq DNA Polymerase
(recombinant), 50U
Product No:
BIO-5050-50U

OR

6x DNA Loading Dye
1.0ml
Product No:
BIO-5060-1ml

OR

10% discount off
your next purchase of
1st BASE Molecular
Biology Reagents

Promotion valid till **31st March 2011**.
Please enquire for details.

NEW LAUNCH!

Free samples of
1st BASE Molecular Biology Reagents
are available

Email your requests to info@ptgenetika.com or call us at **021 569 821 37** for details.

Join our mailing list to receive information on our latest promotion!
Sign up using our subscription form at www.ptgenetika.com/contact/mailer_subscribe

PT Genetika ushers in the New Year with exciting giveaways, new launches and not to be missed offers from KAPA Biosystems, Geneaid, Santa Cruz and 1st BASE!

Genetika's Great Giveaway

Every purchase of **Rp 3 million in a single PO** receives **ONE Hinged Freezer Box** (100-place, Neon Colour)

Valid for all qualifying orders **till 29th April 2010**

Send your orders and enquiries to info@ptgenetika.com
or call us at **021 569 821 37** today.

Terms and Conditions apply

1. Promotion is valid till 29th April 2011, and order value applies to a single Purchase Order only.
2. Purchase Order must reach us by 29th April 2011 to qualify for free gift.
3. Not applicable for purchase of 1st BASE products and services.
4. Promotion will not run in conjunction with other promotional offers, standing orders or tender agreements.
5. Colour of neon racks is randomly selected for each order. Pre-selection or exchange of rack colours is not available.

Geneaid

Geneaid

For more information, visit www.geneaid.com

Geneaid is a leading producer of **DNA/RNA Purification products** for plasmid DNA purification, genomic DNA purification, virus DNA/RNA purification, gel extraction/PCR clean-up, magnetic bead genomic DNA/RNA purification and high-throughput 96-Well DNA/RNA extraction in the global biotechnology industry.

Genetika's Top Sellers from Geneaid!

DF100	Gel/PCR DNA Fragments Extraction Kit, 100 preps/kit
DF300	Gel/PCR DNA Fragments Extraction Kit, 300 preps/kit
PD300	High-Speed Plasmid Mini Kit, 300 preps/kit
PD100	High-Speed Plasmid Mini Kit, 100 preps/kit
GB100	Genomic DNA Mini Kit (Blood/Cultured Cell), 100 preps/kit
GP100	Genomic DNA Mini Kit (Plant), 100 preps/kit

KAPA Biosystems' FREE DNA Ladder Promotion

Purchase 2 packs of any item below to get 1 pack of KAPA Universal DNA Ladder, 200 lanes (KK6302)

Valid from 1st Feb - 29 April 2011

Product No.	Description
KK1015	KAPA Taq (500units)
KK1022	KAPA Taq with Loading Dye (500units)
KK1006	KAPA Taq Ready Mix (250rxn)
KK1024	KAPA Taq Ready Mix with Loading Dye (250rxn)
KK5004	KAPA 2G Robust with dNTP Mix (100units)
KK5522	KAPA 2G Robust Hot Start (100units)
KK5701	KAPA 2G Robust Hot Start Ready Mix (100rxn)
KK2101	KAPA HiFi with dNTP Mix (100units)
KK2601	KAPA HiFi ReadyMix (100rxn)
KK2502	KAPA HiFi Hot Start (250units)

KAPA Universal Ladder

Other popular items available as ex-stock!

Product No.	Description
KK1510	KAPA Taq HotStart (500units)
KK2101	KAPA HiFi with dNTP Mix (100units)
KK2601	KAPA HiFi Ready Mix (100rxn)
KK2502	KAPA HiFi Hot Start (250units)
KK5004	KAPA 2G Robust with dNTP Mix (100units)
KK5522	KAPA 2G Robust Hot Start (100units)
KK5701	KAPA 2G Robust Hot Start Ready Mix (100rxn)
KK4603	KAPA SYBR Fast MasterMix (2X) ABI Prism (1ml)
KK4606	KAPA SYBR Fast MasterMix (2X) Bio-Rad ICycler (1ml)
KK4600	KAPA SYBR Fast MasterMix (2X) Universal (1ml)
KK1017	dNTP Mix (500ul, 10mM)
KK6003	T4 DNA Ligase (50rxn)
KK6101	Rapid Ligation Kit (50rxn)

Place your orders via email to Info@ptgenetika.com or call us at **021 569 821 37** today.

Santa Cruz Biotech's Reagents for IHC and WB

Santa Cruz Biotechnology offers a wide variety of secondary antibodies, control immunoglobulin and control sera for a large selection of species. You may also find a comprehensive portfolio of reagents to complement your IHC and WB experiments.

- Conventional & Cruz Marker™ Compatible Secondary Antibodies for Western Blotting
- Isotype-Specific Secondary Antibodies for Western Blotting (WB), Immunohistochemistry (IHC) and Flow Cytometry (FC)
- ABC Staining Systems: for Immunohistochemistry staining
- ImmunoCruz™ Staining Systems
- Normal Sera and control IgG

Complementary Reagents for IHC and Western Blotting

- AmpliCruz™ Western Blot Signal Enhancement System
- Avidin Conjugates
- Blocking Reagents for Western Blotting Applications
- Cruz Blot™ Systems for Western Blotting
- ExactaCruz™ IP/WB Reagents
- Mounting Media for Immunohistochemistry
- Substrates for AP- and HRP-Based Detection Systems, useful for histologic staining and ELISA
- Western Blotting Chemiluminescence Luminol Reagent and more

AmpliCruz™ WB Signal Enhancer (sc-45049)

The AmpliCruz™ Western Blot Signal Enhancement System is designed to amplify the desired signal detected by Western blot by increasing chemiluminescence signals generated by HRP-conjugated antibody probes. It is especially effective for experiments in which protein targets exhibit low immunoreactivity.

Kit Contains:

- Membrane enhancement solution
- Membrane blocking solution
- Primary/secondary antibody dilution buffer

Visit www.scbt.com/datasheet-45049-amplicruz.html for more details!
